EuroCup #1 - Fisher-Guillou and Gouron Win

The first 29er Eurocup of the season took place during the Easter week-end in Cavalaire, France, and turned out to be a big success. Ten races got sailed in rather windy conditions (25 knots on the first day to 5-10 knots the last one). Sixty-one competitors from eight countries (FRA, DEN, GER, NED, ESP, SUI, ITA, NOR) had come to the French Riviera to enjoy its famous sunny climate. Though some nations had obviously forgotten to put the event on their agenda, the level was still very good. Kévin Fisher-Guillou and Glenn Gouron, the French sailors who had won the Kieler Week last year, outdid their opponents with eight victories! A great number of experienced teams were present though: the Danes for instance with Jeppe and Soren Dybkjar Ditter in second place and the girls Ida Marie Baad Nielsen and Marie Olsen in eighth. The Dutch Europeans bronze medallists Mark Walraven and Kaj Bocker are in third place.

Until the next events of the Eurocup championship, one can still go on the organizer's website and have a look at the results and the breathtaking pictures: <http://www.yacht-club-cavalaire.com/regates.htm>
